Bus Interface	USB 2.0	
TV Tuner	Input Signal	75 ohm (VHF / UHF)
	Receiving Frequency	VHF 174~230 MHz
		UHF 470~862 MHz
Demodulator and FEC	Channel Bandwidth	6, 7, 8MHz
	COFDEM Mode	2K, 8K
	Viterbi decoding	1/2, 2/3, 3/4, 5/6, 7/8
	Guard interval	1/4, 1/8, 1/16 or 1/32
Analog TV Tuner	TV Standards	NTSC, PAL, and SECAM
	Tuner systems	(B, G, H, D, K, I, M, N, L, and L')
	TV Channel	CATV VHF/UHF
IR	Remote Control	Infrared Remote Control

System Requirements

In order to install and use PD701 successfully, your system must satisfy with following requirements.

- 1. **Interface:** One available USB port
- 2. **CPU:** Pentium ® III/4, Celeron ™ or AMD Athlon™, Duron™ CPU
- 3. **OS:** Microsoft ® Windows ® XP SP1/2, Windows ® 2000 SP4, or Windows ® XP Media Center Edition 2005
- 4. **DirectX:** Microsoft ® DirectX ® 9.0b
- 5. **Graphic Card** : Director X ® 9.0 compatible Graphic card.
- 6. **Sound Card:** AC97 compatible PCI sound card.
- 7. **Hard Disc:** Up to 600MB hard-disk space for a full installation. Significantly more space may be required to record TV program.
- 8. **System Memory:** 256MB of RAM or more is recommended.
- 9. **CD-R/W or DVD R/W:** For burning Video CD and DVD

Package Contents

DVB2GO mini digital terrestrial TV receiver box

- USB extension cable
- 2.4G mini-size retractable antenna
- Portable antenna (MCX Connector)
- Antenna adapter Cable (MCX to IEC)
- Remote Control
- User's manual
- Driver disc
